BLOOD BIKES

THE WORK OF THE NABB

For 50 years The National Assoc of Blood Bikes has provided a FREE service to
the NHS

In recent years over 1,400 advanced qualified motorcycle volunteers
responded to around 35,00 requests for rapid transport to 262 hospitals
across the UK, ferrying whole blood, platelets, plasma, serum, Xrays, MRI
scans etc.

They are not about having the ride of their lives but ride to save someone
else's.

On this occasion money collected will be given to this charity.

Just £3 includes tea/coffee & home-made cakes
